Letter to the Governor and the Ohio General Assembly

Dear Governor DeWine, President Obhof, and Speaker Householder,

On behalf of the State Cosmetology and Barber Board, it is my pleasure to submit our annual report for Fiscal Year 2019. This report reflects the efforts made by the State Cosmetology and Barber Board to ensure that all persons offering barbering, cosmetology, and tanning services; and all salons, barbershops, tanning facilities, and cosmetology/barber schools have the proper minimum qualifications to provide these services to the citizens of Ohio. This report also summarizes the licensure and enforcement activities undertaken during fiscal year 2019, demonstrating the State Cosmetology and Barber Board's important influence on providing safe beauty and hair services to Ohioans. This report will provide information about the barber, cosmetology, and tanning industry in Ohio, our methods of operation, the accomplishments, actions of the agency, and the dedication of the Board members and its staff on meeting the legislative mandates of Chapters 4709 and 4713 of the Ohio Revised Code. Finally, this report provides recommendations for improving the regulation of these industries in Ohio.

The State Cosmetology and Barber Board would like to thank you for supporting a budget that allows the Board to meet its legislative objectives and address the many challenges faced by the State Cosmetology and Barber Board in protecting the safety and welfare of Ohioans through effective regulation of this industry.

Respectfully submitted,

A handwritten signature in black ink that reads "Thomas Taneff". The signature is fluid and cursive, with a large, stylized initial "T" and "A".

Two positions are currently unfilled: a tanning facility owner and an employee barber. The Board is required to meet at least four times each year, but normally meets every other month. In addition to regular Board meetings, the Board has established two committees and a workgroup to improve efficiency, which permits the Board to address subject-specific issues and make recommendations to the full Board.

The Committees are:

- Curriculum Review Committee: This Committee is tasked with reviewing the curriculum standards for cosmetology, branches of cosmetology, and barber programs. Educational curriculums are reviewed to assure the programs provide the coursework necessary for students to take and pass the minimal competency examination for each type of license issued by the Board. The Committee recommends curriculum changes to the Board for approval.
- Rules Review Committee: This Committee is tasked with meeting with staff to consider new, amended, or proposed rescinded rules. The Committee may accept, reject, or modify staff recommendations. Proposed rules are sent to the full Board for consideration. The process provides an efficient review that streamlines drafting processes and results in rules that are better formulated, taking into consideration input from interested parties and regulated persons.

Additionally, one member is assigned as a Board liaison to a staff workgroup called the Administrative Review Group. The Review Group is charged with reviewing complaints,

inspections, and investigations to determine if the findings warrant the issuance of a Notice of Opportunity for Hearing, or if the matter should be dismissed for legal or jurisdictional reasons. The Review Group may review settlement agreement conditions, proposed Notices of Opportunity for Hearing to determine if the inspection report findings correlate to alleged violations, and other actions taken by the Board. The workgroup takes no action and does not conduct any business on behalf of the Board. All recommendations must go before the full Board for consideration before implementation.

Purpose

The Board is a multi-dimensional agency authorized under Chapters 4709 and 4713 of the Ohio Revised Code. Under the authority established by law, the Board regulates individuals and businesses engaged in providing barbering, cosmetology, branches of cosmetology (e.g. esthetics, hair design, manicuring, and natural hair styling), boutique, and tanning services. Businesses regulated include barbershops and salons engaged in retail barbering and cosmetology services, tanning facilities, and barber and cosmetology schools.

In addition to its licensing duties, the Board routinely inspects businesses (barbershops, salons, tanning facilities, and schools) engaged in the provision of barbering, cosmetology, and tanning services. Inspectors issue reports in real-time using a web-based inspection system. Violations are noted, and businesses are required to post their inspection finding in a conspicuous place that is accessible to the public. Inspectors may issue a warning for some violations, based upon guidance established by the Board that takes into consideration the criticality of the violation. Other findings may result in the issuance of a formal Notice of Opportunity for Hearing issued under Chapter 119 of the Ohio Revised Code. Additionally, the Board also receives and processes complaints from the public. Complaints may result in a formal investigation or inspection depending upon the nature of the complaint. An investigation may also lead to the issuance of a formal Notice of Opportunity for Hearing issued under Chapter 119 of the Ohio Revised Code. In all respects, persons, including individuals, barbershops, salons, schools, or tanning facilities, alleged to have committed a violation of Chapter 4709 or 4713 of the Ohio Revised Code, or rules promulgated thereunder, are afforded an opportunity for a hearing under the applicable provisions of law.

Following an adjudication hearing, the Board may act against a licensed barbershop, salon, school, tanning facility, or person licensed as a barber, cosmetologist, esthetician, hairstylist, manicurist, natural hair stylist, or a boutique service registrant. Within the parameters of applicable law under Chapters 4709 and 4713 of the Ohio Revised Code, the Board may refuse to issue or renew, deny, suspend, or revoke a license. Additionally, the Board may also levy fines, require corrective action courses, or impose conditions on certain licenses.

If a person or facility is found practicing or operating without a license, permit, or registration, the Board may seek an injunction or appropriate restraining order for such practice in the county where the violation occurred. The Office of the Ohio Attorney General, upon the Board's request, may pursue appropriate relief through the court of common pleas in the county in which the violation occurred.

Official actions of the Board are journalized in the minutes of each meeting. Board meeting minutes are available to the public by mail, electronic mail, and a full year or more of the minutes are maintained on the Board’s website. The Board disseminates information concerning its activities, forms, notices, and Board member profiles on its state website: www.cos.ohio.gov.

Funding

The Board is self-sustained through fees generated from applications for initial licensure, renewal fees, fines, and other miscellaneous sources. The Board’s fees are deposited into the Occupational and Professional Licensing Fund, called the “4K9” fund, consisting of revenue from twenty-seven commissions and professional licensing boards. Each agency in the fund is required to generate sufficient revenue to meet its own expenses. Although the 4K9 fund serves as the funding source for the Board, it is not a rotary fund. The board is funded through the standard biennial budget process, meaning the Ohio General Assembly establishes the Board’s biennial budget. Every two years the Board reviews licensure fees and budget requirements to determine if fee adjustments are necessary.

Finances

Pursuant to Chapters 4709 and 4713 of the Ohio Revised Code, the Board is authorized to charge fees for the issuance of licenses or permits and/or impose fines for violations of those chapters and rules adopted thereunder. Total revenue collected in Fiscal Years ending in even numbers will show a deficit in comparison to expenditure for the year due to licensure renewal activity, which occurs during odd-numbered Fiscal Years. Odd-numbered year revenue represents approximately 80% of the agency’s biennial total.

Staffing

During FY 2019, the Board employed 46 full-time staff. The staff consists of an Executive Director, a Deputy Director, seven supervisory/administrative staff, four customer service staff, five examiners, seventeen field inspectors, three administrative action staff, six exam/licensing staff, and two administrative/fiscal staff.

Education

The Board is responsible for licensing private, career technical, adult, and Department of Rehabilitation programs that offer training in barbering, cosmetology, or branches of cosmetology. There are four distinct types of schools that offer educational programs in either barbering or cosmetology/branches of cosmetology: Adult Education – Public Schools, Career Technical, Rehabilitation and Corrections, and Private Schools.

Adult Education programs through a Career Technical School are programs offered by the Career Technical School as an after-hours program for adult learners returning to increase their skills in a specific career track, such as cosmetology or branches of cosmetology.

Career Technical Schools are affiliated with the public-school system offering a comprehensive educational approach to complete both primary education requirements and training in technical theory and practical skills in cosmetology or branches of cosmetology.

Rehabilitation and Corrections Schools are in Ohio correction facilities. These programs offer all training hours required to qualify for a license in cosmetology and barbering. The Ohio Department of Rehabilitation and Correction offers on cosmetology and five barbering programs in system facilities throughout the state.

Private Schools are proprietary businesses that offer education and training in technical theory and practical skills in barbering, cosmetology, or branches of cosmetology. The National Accrediting Commission of Cosmetology Arts and Sciences (NACCAS) accredits most of these schools. The Accrediting Commission of Career Schools and Colleges is also an organization that offers accreditation. Accreditation is not a specific requirement under Ohio laws and rules.

The Board currently licenses 16 private barber colleges, 1 adult education barber school, and 5 rehabilitation and correction barber schools. For cosmetology and/or branches of cosmetology,

the Board licenses 88 Career Technical Schools, 56 Private Schools, 21 Adult Education programs, and 1 Rehabilitation and Correction cosmetology school. During FY 2019, 2 barber schools closed in the State of Ohio while 3 schools opened. Additionally, 10 cosmetology schools closed, and 7 new schools opened.

Licensure

The State Cosmetology and Barber Board is responsible for the licensing of individuals engaged in providing barbering, cosmetology, or branches of cosmetology services. The Board licenses salons engaged in retail cosmetology services, branch of cosmetology services, barber shops, and tanning services. The Board is responsible for the licensure of education programs designed to prepare persons for careers in barbering, cosmetology, or branches of cosmetology. Additionally, the Board issues permits to persons engaged in limited services called “boutique services” and salon licenses to businesses engaged in the provision of boutique services.

Examinations

Examinations are offered year-round. Typically, the examination center has examinations scheduled Monday through Friday throughout the year. The examination center is designed to accommodate up to 50 practical exams and 30 theory exams per session. The examination system integrates with Ohio’s eLicense system. Results are automatically uploaded, and licenses can be issued immediately upon passing the theory and practical examinations and filing the license application. This same day service allows licensees to begin working in the industry immediately after successfully completing their competency examination for their intended careers.

It should be noted that the Barber Teacher Exam procedure changed on February 21, 2019 as a result of a rule change. The rule change resulted in the exam becoming a theory only exam.

Professional Licensing

The State Cosmetology and Barber Board is responsible for the issuance and regulation of many professional licenses. In the practice of barbering, three licenses are issued: Barber, Barber Teacher, and Assistant Barber Teacher. In the practice of cosmetology or branch of cosmetology, the Board issues two types of practicing licenses: a basic practicing license and an advanced practicing license. Additionally, the Board issues an instructor license for persons seeking authorization to teach cosmetology or a branch of cosmetology, and an Independent Contractor license to persons that rent booth space in salons. Persons that lease or rent a barber chair within a licensed barbershop are required to hold a separate chair license for that service. Last, the Board issued a Boutiques Service Registration, at no cost, for persons engaging in boutique services. The scope of services covered under the boutique services registration are shampooing, braiding, and threading.

Business Licensing

Beauty salon and cosmetology school licenses are issued by the Board and are designated according to the scope of practice rendered: cosmetology, esthetics, manicuring, hair design, natural hair styling, or boutique services. Barbershops are licensed to provide barber services, but other additional services, such as manicuring, can be offered at a barbershop. Barber schools are licensed to provide barbering education only. Additionally, the Board issues permits to tanning facilities. Tanning facilities, pursuant to provisions of law, must restrict access or limit service based upon the age of the person seeking to use the tanning equipment. The Board develops consent forms, conforming to the Ohio Revised Code, which clearly state the risk factors associated with tanning and skin exposure to radiation produced by UV light sources in tanning systems.

Inspections/Complaints/Administrative Action

The Board is authorized under Chapters 4709 and 4713 of the Ohio Revised code to inspect facilities licensed by the Board. Additionally, the Board may investigate complaints filed by consumers. Pursuant to the findings of inspections, the Board may impose disciplinary action against individual licensees, barbershops, salons, schools, or tanning facilities for violating standards of practice in the provision of services. Hearings are held in accordance with Chapter 119 of the Ohio Revised Code. Alternative settlement agreements (Consent Agreements) are

regularly offered in lieu of a hearing. Once approved by the Board, Settlement Agreements are entered upon the Board’s journal as an Order of the Board.

In FY 2019, the Board field inspectors attempted 12,733 inspections representing 11,774 businesses visited. Of these, 959 were reported as “No Contact,” meaning the business was not open or the inspector could not enter the premises.

During FY 2019, the Board received 561 complaints. Of those, 534 were closed and 27 are in the pending status. There were 90 violations issued on these 561 complaints.

This does not exclude hair care products used and sold in barber shops or the sale of clothing and related accessories as authorized by division (F) of section 4709.09 of the Revised Code.	Removal of this language expands opportunities for barbers to include other services within a barbershop, and allows barbers to practice in additional locations (special events, conventions, trade shows, etc.) as approved by the Board. The issuance language is rendered unnecessary by the proposed revision to division (A) of this section. The display language is being removed to harmonize with the process in Chapter 4713 of the revised code. This will allow the Board to utilize a single license format for all licensees.

(C) Any licensed barber who leases space in a licensed barber shop and engages in the practice of barbering independent and free from supervision of the owner or manager of the barber shop is considered to be engaged in the operation of a separate and distinct barber shop and shall obtain an independent contractor license to operate a barber shop pursuant to this section by submitting the form provided by the board and paying the fee established by the board in rule.	Proposed language replaces the “shop-within-a-shop” requirements for independent contractors with an actual independent contractor license, which the Board already issues under Chapter 4713 of the Revised Code. This change allows the Board to issue a single independent contractor license to all Board licensees working as independent contractors. This change will also benefit barber licensees as the fee will be reduced from the current \$110.00 (\$75.00 renewal) for the “shop-within-a-shop” license to the \$75.00 (\$60.00

			renewal) charged to independent contractors under Chapter 4713. In addition, the independent contractor license is portable, and can be used if the barber changes work locations. The “shop-within-a-shop” license, on the other hand, is location-specific, and an individual would need to obtain a new license if they change work locations.
4709.09(D)	(D) A shop license is not transferable from one owner to another and if an owner or operator of a barber shop permanently ceases offering barber services at the shop, the owner or operator shall return the barber shop license to the board within ten days of the cessation of services. (C) The jurisdiction that issued the applicant's license or registration extends similar reciprocity to individuals holding a license issued by the board.	Proposed revision removes the requirement that an individual is only eligible for reciprocity if their jurisdiction extends similar reciprocity to Ohio licensees. The reason for this is that there are no formal reciprocity agreements between states regarding cosmetology licensure, and the statutory language does not define what constitutes "similar" reciprocity. Removal of this language will increase reciprocity for licensees to become licensed and employed in Ohio, and will increase opportunities for Ohio licensees seeking licensure in other jurisdictions.
