

Instructions for making a State Board Hand For Testing

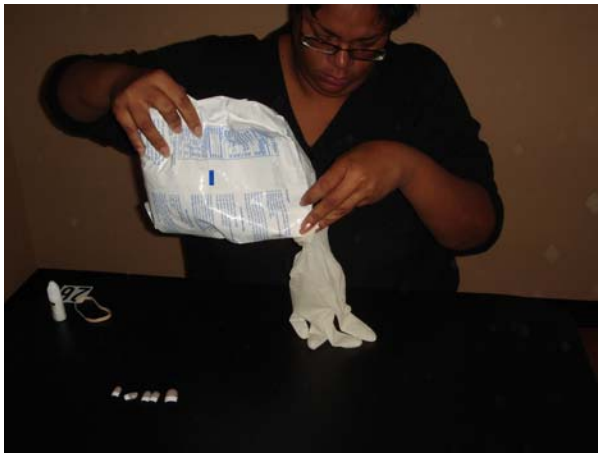

Supply List:

- **Glove (Example: Latex, kitchen, vinyl, etc.)**
- **Nail Tips**
- **Glue (Example: Nail Glue, Super Glue, etc.)**
- **Tie off Material (Example: Rubber Band, twist tie, string, tape, etc.)**
- **Substance (Example: Flour, rice, beans, bird seed, sand, etc.)**

Step 1

Fill glove with appropriate amount of substance to ensure fingers and hand portion of glove are firm and totally filled.

Step 2

Use tie off material to close open end of glove to ensure substance is secure.

Step 3

Glue nails to the finger tips of the glove to create free edge. Please be sure that nail tips are firmly attached to each finger.

Step 4

Glove is now complete and ready to perform manicure. Please be sure a free edge is visible.
